Thanksgiving Place Cards

thanksgiving-place-cards / 1.0.0 / Letter / Assembly instructions

Finished size: Each card: 86 x 35 x 30.31 mm; four independent cards

Materials: 180-220 gsm ivory or white cardstock; Scissors; Ruler and blunt scoring tool; Craft glue stick; Pen; optional orange and rust coloring pencils

Step-by-step guide with a 3D model: https://snipfold.com/work/thanksgiving-place-cards. Not yet test-built in paper by SnipFold: measurements come from the digital model, so check the fit as you go.

Original SnipFold design. One template sheet makes four complete cards. Repeat for more guests. Black outlines save ink; optional hand coloring supplies the preview colors.

Each 86 x 70 mm blank folds into two 86 x 35 mm faces. Each front has a blank 54 x 25 mm name area to the right of its badge. No tiny tabs or slots.

Exact rigid-face geometry; paper thickness, bend radius and springback are not simulated. Badges sit 0.2 mm above the front as a glued layer. Preview spacing separates four independent cards.

Use stiff cardstock on a dry level table and check the crease holds.

Part inventory (cut each instance once):

C1: Name tent

D1: Pumpkin badge

C2: Name tent

D2: Pumpkin badge

C3: Name tent

D3: Maple badge

C4: Name tent

D4: Maple badge

1. Print and cut four sets [C1, C2, C3, C4, D1, D2, D3, D4]: Print the template page at 100% on 180-220 gsm cardstock; check the 50 mm ruler. Cut C1-C4 and D1-D4 on solid outlines, keeping stems and leaf points. Labels remain outside. D1/D2 are pumpkins; D3/D4 are maple leaves.

2. Score and write the names [C1, C2, C3, C4]: Lay each tent with its 86 mm edges horizontal. Score the dash-dot line halfway up, 35 mm from the bottom. The lower half is the front. Write a name upright in the blank area 29-83 mm from the left edge and 5-30 mm above the bottom. This leaves 54 x 25 mm clear; the fold is above the name. Do not cut the fold.

3. Attach the autumn badges [D1, D2, D3, D4, C1, C2, C3, C4]: Optionally color D1/D2 orange and D3/D4 rust. Glue each badge to its matching card number, on the lower front half. Put the badge bounding box 3 mm from the left edge and 4 mm above the bottom, stem upright for pumpkins and downward for leaves. Spread a thin glue-stick coat over the back, press flat and let dry. Keep glue and decoration left of the writing area.

4. Fold and stand the four tents [C1, C2, C3, C4]: With the names on the outside, mountain-fold the scored center line so the plain back falls behind the name face. Crease firmly, then open to a tent with its bottom edges 35 mm apart: both faces slope 60 degrees above the table and the inside ridge angle is 60 degrees. Place each card independently at a setting. Both straight 86 mm bottom edges must touch the level table.

5. Check the place settings [C1, C2, C3, C4, D1, D2, D3, D4]: Check names face guests, badges lie flat and the tents hold their 35 mm footprint without sliding or springing open; sharpen the crease if needed. Keep dry and away from candles.
